A WIRE-PULLING MAYOR.

That ungrateful son of Democracy, John R. Flippin, mayor of Memphis by virtue of has received in salaries nearly thirty thousand dollars in money from the party through nominations for offices, has added new laurels to the wreath which adorns his massive brow that in consequence of this decision the probably appoint them. When the nominations were made by Mayor Flippin last night but one judge was given to the Democratic executive committee, and that was in the seventh ward. The Workingmen's party, through their committee, secured ten judges, one from each ward, from Mr. Flippin. The rest of the judges are Flippin men to the core. Can partisanship go further? Mayor Flippin has shown himself to be a thorough bred wire-pulling ward politician when working in his own interest; and with all his little ing in his own interest; and with all his little | since April, 1877, it appears that this repudiwire-pulling he will never be mayor of Mem-

The market has varied but little for spring corn, but a slight improvement, both a value and demand, is noted for oats." The Mark Lane Express crop returns for the year 1877, show that except hay, all the crops have been much below the average. The wheat crop has been most deficient o , as there were only 6 of the 409 returns, representing it as over an average, and no less than 369 describing it as below. According to the tables it was even a worse erop than that of 1875, which was the most deficient crop previously had during fifteen years. The barley crop, too, was the smallest grown within the same period. OUR LAST INSULT.

To-day the municipal election took place, and the bars were closed again, making two days in succession that no whisky was sold. The town began to sober up. But that appearance was deceptive. M'Gill

Several men have shared a like fate since the bars were opened. The mid-night revel, carouse and drunk are indulged in by a great many, but it is due here to the "we's," or law-makers, to say that they are not a part of the crowd. Colonel Shafter's Statement Concerning Affairs on the Rio Grande, as made before the Sub-Committee on Military Affairs.

Washington, January 8 .- Colonel Shafter was again before the subcommittee on military affairs to-day by request of the com-mittee. He produced two letters from General Naranjo, commanding the Mexican troops on the Rio Grande, addressed to him last August, showing the most friendly feelings toward him.

Lieutenant Bullis gave a circumstantial narrative of the results of his raids into Mex-

In reply to the question as to whether it would be possible for a sufficient force to annihilate them, he answered that they were very cunning; they hide their families in their fastnesses, and it was almost impossible to reach and strike them; there were no offenses to bring on a con-

In his expeditions into Mexico he had always been treated with great cordiality by the Mexican officers and by the respectable citizens of the frontier towns. Before the issuance of the order of the war department to cross the Rio Grande there did not appear to be any objections on the part of the Mexicans that this should be done, but when the formal order was issued it seemed to the Mexicans an assumption on our part to dictate to Mexico. The order was, however, modified in July, 1877, so as to provide that when Mexican troops were prepared to go in pursuit of raiders ours must stop. The bitterness of feeling expressed on the frontier was by those who have been robbed of their property. Our citizens on the border are opposed to war; they want protection.
